

CAMPBELLFORD WHOLESAL CO. LTD.

INFORMATION NOTICE

COVID-19 Wholesale Product Supply & Article Shortages

March 19, 2020

To All Our Valued Customers,

The world is facing an issue of enormous scale and uncertainty with the Covid-19 pandemic. It has never been more important for our company to ensure the safety and support of our customers, teammates and the communities that we service.

Increased consumer product demand is not limited to paper products and cleaning & sanitizing supplies but has expanded to several grocery categories including breakfast cereals, canned food and frozen food. Our supply partners are making daily revisions to their manufacturing and distribution schedules to ensure product supply continues to move to our wholesale center. Product inventory levels are being closely monitored and order limits have been initiated to provide fair distribution of product throughout all our customers. We ask for your patience and understanding during these times of uncertainty while assuring you we are doing our best to help fill these demands. Furthermore, there will be no promotional or special sheets being distributed at this time.

These are trying times for all and we would like to thank you and will continue to serve you.

Stay healthy, take care of yourselves, and each other.

Sincerely,

The Management and Staff of Campbellford Wholesale LTD.
